FIRE - INSURANCE RATES IN CLARESHOLM

Recently the Review wrote the secretary of the Western Canada Fire Underwriters' association in reference to the delay in reducing the rates in Clareholm in recognition of the installation of a water service. It was pointed out that other towns had been re-rated and that Clareholm was justly entitled to fair treatment. Yorkton was quoted as example of a place where a couple of wells were dug, a tower erected and the tower was 20 to 35 per cent reduction in rates. The Review has received the following reply, which is published as a matter of interest to every rate payer. The Review assumes that Mr. Harrison would not object to its publication.

T. W. Quinley, Esq., The Clareholm Review, Clareholm, Alta.
Dear Sir, I have your favor of the 18th. inst., with regard to fire protection, and note your remarks therein. I think that you have been misinformed on one or two points; for instance, in regard to the reduction in rates in Yorkton, it is impossible for us to state exactly what the reduction was, as each individual building is figured out separately, and the reduction varies according to the construction and occupancy. I may say, however, that the maximum reduction given any building in Yorkton was 20 per cent of the "C" Tariff rates and the average did not run over 15 per cent.

With regard to the present rates in Clareholm, I do not know what ground you have for saying that they are stiffer now than they were before, but I may say that there is absolutely no truth in that statement; they are the same rates that have been in force for some years. It has happened occasionally that when we rate a town specifically, publishing rates for every mercantile building in the town, as has recently been the case in Clareholm, our rates have been higher than those previously charged. For the reason that the agents do not always collect the correct rate when they are allowed to figure rates out for themselves.

With regard to the question of future rates for Clareholm, I may say that the waterworks system was inspected by an officer of this Association last November. It is our intention to have the town re-inspected and publish a new set of rates at an early date. Just what the reduction in the rates will be, I am at present unable to say, probably from 7 1/2 to 12 1/2 cents.

I note your remarks with regard to Yorkton and say that, from our standpoint, the Yorkton system is in many ways a better one than Clareholm. I would point out to you a few defects in the Clareholm system—wood wire wound pipes have been used, a type of water main which cannot be considered as standard. A bad feature of the system is that there is no one on duty at the power house during the day, and it appears to take from fifteen to twenty minutes to supply power to the pump. This would seem to be a very bad feature, considering the unnecessary delay in obtaining fire pressure for use during a fire. Again, owing to the fact that none of the apparatus is in duplicate, the service is always liable to interruption. Another bad feature is the fact that the system, East of the Railway, is kept out of from the main system and in the event of fire it is necessary to shut off the relief, which means under delay. The fire hall appears to be inadequate, in that it does not supply room for men to sleep there. The town would also appear to be somewhat deficient in the means for handling appliances, as the town size of Clareholm should have at least one horse drawn vehicle. It would also be an improvement if some provision were made for paying the firemen for their services at a fire.

In conclusion I may say that this matter will be taken up very shortly and Clareholm will be re-rated, with a reduction of the present rates. At the present time, however, I am unable to state definitely what the reduction will be.

Yours very truly,
F. J. L. Harrison,
Secretary-Treasurer.

In connection with the above the Review would like to point out one or two facts which Mr. Harrison is probably not aware of.

As regards the rates in Yorkton the Review had the authority of the secretary-insurer of that town in making the statement as to the reduction granted.

The test made by the underwriters' Inspector here, was made under very unfair conditions, for an absolutely new system. He dropped into town on one of those freak days when the weather was intensely cold. So cold was it his horse either froze or broke, at the hydrant, and he couldn't measure the force of the pressure. Water however, was thrown with ease and in an abundant stream over the new Clark building.

If he were to come now he would find the brigade in much more efficient shape and properly organized as to squads for handling the hose, the hydrants, and the chemicals.

As regards the wooden pipes, if Clareholm has made a serious mistake, it is largely due to the advice of engineers, who misled the town from the start, as to cost, and made two or three demands on the ratepayers for money imperative after Mr. Arnold of Lethbridge, declaring emphatically that the original debenture would be quite sufficient for the purpose.

As regards the system east of the tracks, being shut off, that defect has been remedied, and now the whole town is served from the same source. If that objection weighed to any extent against a reduction in rates, we hope Mr. Harrison will take note of the removal of the grievance.

Still another objection has been removed in reference to men not sleeping at the fire hall. By the acquisition of the new lower hall seven men can sleep there, and are ready for a quick response to any emergency call at night. A telephone has been placed in the fire hall and one man is detailed to answer it. The men sleeping at the hall are expected to rush the chemicals to the fire in the hope of quenching it in the incipient stage.

As regards there being no man at the power house during the day, the Review admits this deficiency and feels that the majority of ratepayers would like to see the hours of employees adjusted so as to overcome this objection. It may be pointed out however, that the town is not dependent on the pump house for fire pressure, the tower serving this purpose, as it does in the towns which have wells as a source of supply.

As to the duplication of apparatus that is a serious defect in the town of a town of 1000 people and the Review would like to hear of the town that have it. The tower has a capacity of 1000 gallons, and that is a fair supply of water. The supply is kept up as pumping is done every night.

As regards the horse drawn vehicle the town is now looking for a hook and ladder truck and that deficiency will then be supplied. The fact remains however, that when necessary a horse is requisitioned as was the case in the very last fire, namely, the blaze at the old lower house on Rock Hill. Clareholm has spent double the amount of any town, of its size. It has an abundant supply of water and relies on the generosity and fair-mindedness of the underwriters to give us a square deal. In reference to the allegation made by the Review that the rates are stiffer now than previous to the water service being installed, we were shown rating cards in two insurance offices, which supported the statement. One card was the old rate on the business blocks. The second card showed a reduction not very big, but still a reduction. The latest card places the rates higher than they were on the first card shown. It is said that figures do not lie.

Farmers' situation. The U.F.A. are arranging to bring in a car load of flour, bran and shorts. Any member desiring a quantity will please leave the order at S. L. Fraser's office on or before March 11th. O. A. Finstad, president.

DEMONSTRATION FARM

Speaking at a banquet in Macleod to the instructors at the short course school in agriculture Mr. R. Patterson M. P. P., is reported by the Advertiser as follows:

"He said he had tried to induce Mr. McKenzie to use his influence with the Government to put the Demonstration Farm in Macleod but had found that gentleman committed to Clareham. However he (Mr. Patterson) would do his best to get it here."

The Review publishes the above to give Mr. McKenzie the deserved kudos in Clareham, as it is quite evident Mr. Patterson was trying to dissuade him in Macleod. Mr. McKenzie should have no trouble in convincing the ministry that Clareham riding is entitled to one of the farms not only from the fact that the farming conditions are exceptionally favorable but because the member for Clareham by his vote placed the question of this riding on record as in favor of the demonstration farms.

The member for Macleod being elected so recently, voted against the appropriation for these farms, consequently the government has no option other than interpreting Mr. Patterson's vote as representing the wishes of his riding. Why should Mr. Patterson in the face of his opposition to the proposal in the legislature turn about and ask for one of the farms? Mr. McKenzie is doing the proper thing in asking that Clareham be given one of these farms, and has a splendid case to go to court with. The riding of Macleod doesn't want a demonstration farm if the actions of its member counts for anything.

The announcement of the removal of Rev. P. Henderson, will be received with regret by all classes and creeds. Mr. Henderson has filled a large place in the community and very justly enjoys a large measure of esteem among people of every shade of religious thought. He will carry to his new sphere of labor, heartfelt wishes for continued usefulness. He is a patriotic Canadian and stands for high ideals in citizenship. To put it in an old fashioned but genuine way, Mr. Henderson's loss will be Armstrong's gain.

Mr. Harrison's letter in another column about fire insurance rates is worth reading. It is a subject which affects the pocket book and therefore every taxpayer in Clareham. This town has invested heavily in fire protection and is surely entitled to generous consideration.

Mr. William Whyte completely exonerates the C. P. R. for any coal shortage which may exist on the prairies. Careful consideration of the conditions fully justifies the action of Mr. Whyte. The C. P. R. is, in no way to blame.

Meetings of farmers throughout the riding of Macleod are reported to be endorsing the action of Mr. Patterson M. P. P. in voting to give seven millions to exploit Clark of Kansas City. The Review having the personal of Mr. Patterson's supporters in the recent campaign and having heard their views on his conduct in the legislature has grave doubts as to the representative character of the alleged meetings. How would it do for Mr. Patterson to give a test by resigning? If he were rejected it would give the policy he stands for some prestige throughout the province. If the farmers of Macleod approve of his vote then those who oppose such a gamble with money for which the province is responsible would have cause to retract their heads out wonder. Will Robert resign? Maybe.

Looks Like Real Union

The first meeting of the joint committee of the Presbyterian and Methodist churches to arrange the work on what are now mission fields, so as to prevent over-lapping and the consequent waste of men and money (met at Macleod Wednesday, Rev. J. M. Harrison, Macleod was elected chairman and Rev. Mr. Gordon of Lethbridge secretary. The committee sat until midnight and succeeded in going over the whole Southern Alberta field. A large number of changes were agreed on and while it is expected that a few old times may object for a while, the churches will gradually adjust themselves to the change and wonder why there was competition and waste for so many years. The Review hasn't space this week for the full report, but only mention that the Methodists are retiring from Granum, and the Presbyterians in exchange are withdrawing from their Carmanville field which includes Burnaby. The Methodists take Champion and the Presbyterians get the Noble and Monarch district. The Methodists are giving the Meadow Creek country to the Presbyterians and are taking the unoccupied field east of Clareham. The Presbyterians take Vulcan and the Methodists Blenheim and so on through the country. A committee was appointed to canvass the membership of the two churches at Cayley and Starely with a view to a possible re-adjustment. The committee had no power to act owing to the Presbyterians claiming that what are called sundry charges. Rev. P. Henderson and T. W. Quayle of this town are on the committee.

Bluxhark District

Mr. and Mrs. L. Hart gave a very pleasant birthday dinner for their little daughter Lucy last Friday Feb. 24th. The little guests were Vivian, Harvey and Cecil Weber, Donald Kirkwood, Della, Ales and Mary Crawford. It was also Mary Crawford's fourth birthday. Mr. and Mrs. D. A. Crawford were adults guests. All have and eat of hard times, but saw no trace of it at Mrs. Hart's bounteous dinner, consisting of turkey chicken, gravies, vegetables, salad, pies, fruit and cake. At the close of dinner a birthday cake with ten candles (one for each year) the little lady had enjoyed was passed to the little guests, each making old faces as they blew out their candles. Parties consisting of little boys filled with candy was passed to each child. Lucy led the little ones to play room where a little afternoon was spent with dolls and games, all declaring it a very happy birthday and wishing Lucy many more returns of the day.

Mr. Oliver and Mr. Dally have been holding meetings at Bluxhark the past two weeks. They are earnest workers, working for the love of the master. All hope much good will follow their teachings as we know Christianity is the best way of refining and making the world better. They are unionists, claiming no denomination just preaching the Scriptures as disciples of Christ. The meetings this week will be in the houses. All are invited to attend.

The union bible class met with Mr. and Mrs. L. E. Maxwell Sunday afternoon. Mr. De Forest is superintendent, Mr. Watson assistant superintendent and Mr. Alex. Thompson secretary and treasurer. There has been a fairly good attendance, from twenty to thirty-six. We have the international Sunday School lesson, prayer and a song service and at a light lunch is served after the service for the benefit of those driving a long distance. The class will meet next Sabbath with Mr. and Mrs. A. J. Crawford at East Sunny Bank ranch. All are invited to attend.

Meadow Creek News

There was quite a heavy snow storm Feb. 24, about 8 inches of snow fell, but the wind from the north-west drifted it up into big drifts, making the roads bad again.

The bible class will meet with Mr. and Mrs. A. J. Crawford next Sunday at 3 p.m., March 4th.

There is to be a Farmers concert and dance at the Bluxhark school house March 3rd. It is hoped there will be a large crowd as it is a well known large school house and a good place to have a fine time.

Be Careful In Building That Home

POOR LUMBER means a cold crude house. After the first year it gets that cheap, shabby look which makes it difficult to rent and difficult to sell. If you are building it to live in you want it a home that you will be proud to show your friends, and furnish it with the big fine bills always necessary where low grade lumber is used. We make a specialty of high-grade lumber and "classy" material that you will want to use. We have built up the largest retail business in Western Canada by being very tussy as to grades and selecting just a little bit better stuff than you can generally get elsewhere at prices as low as those asked for the inferior kinds.

If your contractor uses CROWN LUMBER it means that he is a man who wants the best of everything. It is the best recommendation the man could give.

CROWN LUMBER CO., LIMITED
2 Yards in Calgary 52 Yards in Alberta

The Fuel Supply

La Grippe is taking hold of a good many people in Meadow Creek and vicinity.

Mrs. Hart's hens are in the lead so far. She is getting from 50 eggs to 41 eggs every day. Not bad for stormy weather. She misses the White Leghorns and White Wyandottes.

The W. C. T. U. Space

(This column is edited by the local W.C.T.U. and is under the control of the ladies.)

The regular meeting of the W. C. T. U. which was announced to take the form of a Willard memorial service was held in the lecture room of the Methodist church on Thursday afternoon of last week. More than forty persons were in attendance.

As these services are held annually all over Canada and the United States a regular program is prepared which was followed in part. In addition to this there was a duet by Miss Simpson and Mrs. Driskell and an address by Rev. Mr. Harrison. Both of which were much appreciated.

Mr. Henderson referred briefly to Miss Willard and the fitness of a service such as this. He then gave some impressive figures from attending some meetings of the world's W. C. T. U. in Glasgow last June as to the scope and aims of the organization. These, he said, were a revelation to him.

Mr. Henderson then spoke of the different phases of the Temperance question and referred to the W.C.T.U. as emphasizing that aspect which deals with the liquor traffic as it affects the home life and child life of the nation, and said that this is doubtless the most vital point to be considered.

At the close of the program a collection was taken and light refreshments served.

The regular meeting of the Union will be held on Monday March 6th and will be addressed by Mrs. Hyslop, Dominica W. C. T. U. organizer. Mrs. Hatch will occupy the pulpit and the Methodist church on Sunday morning March 5th, and of the Presbyterian church in the evening. Every one should make an effort to be present at one or both of these services.

Mrs. McKinney attended the Executive meetings in connection with the convention of the Alberta Temperance and Moral Reform League on Feb. 15, but as she was unable to remain for the convention itself is not prepared to give a satisfactory report. Those who receive the Searchlight will find it a full and interesting record of that convention.

Some notes of progress as reported from other provinces are the following:

As a result of the last vote on the question 55 bars will be closed in Saskatchewan and 65 more in Ontario.

Alderman Carter of Montreal says that out of 108 municipalities in the Province of Quebec, 68 have accepted the "No-liquor" policy, leaving only 34 where legalized bar rooms exist.

Capital, Real and Undivided Profits \$5,444,786.
Total Assets over \$11,000,000.

Over 190 Branches

In Canada enable this Bank to offer an exceptional service to the merchant whose business is widespread.

A Simple Treatment that Will Make Hair Grow, Now Sold in Canada

Every up-to-date woman should have radiant hair.

There are thousands of women with harsh, faded, characterless hair, who do not try to improve it.

In England and Paris women take pride in having beautiful hair. Every Canadian woman can have lustrous and luxuriant hair by using SALVIA, the Great American Sage Hair Tonic.

Every reader of the Review can have an attractive head of hair in a few weeks by using SALVIA.

Johnson sells a large bottle for 50 cents and guarantees it to banish dandruff, stop falling hair and itching scalp in ten days or money back.

SALVIA is a beautiful, pleasant, non-sticky Hair Tonic.

Falling Hair

Mrs. J. H. Harris of Wapella, Sask., says:

"I have found Parisian Sage to be the best scalp and hair tonic and dressing. I have ever used. My hair had been coming out in comb full and was very dry and brittle and the scalp was always itching and full of dandruff. I have used two bottles of Parisian Sage and it has stopped my hair from falling, the itching and dandruff have disappeared and my hair is fine and soft and glossy. I would not be without this fine Hair Tonic for many times the price."

For women, men, or children Parisian Sage is without any doubt the finest preparation for the hair. Dandruff prevented. It is free from grease or stickiness and ought to be where every member of the family should use it daily. Large bottle 50 cents at all druggists or from the proprietors, The Great M. Co., Fort Erie, Ontario, postpaid. The girl with the Auburn hair is on every package. Sold and guaranteed by O. L. Reinecke.

When you have rheumatism in your feet or instep apply Chamberlain's Liniment and you will get quick relief. It costs but a quarter. Why suffer? For sale by dealers everywhere.

Claresholm, Alta.

Chiefly Claresholm

Lent started Wednesday. For forty days he goes. Please. Easter Sunday and now hats April 16th.

Wednesday March 1st, was St. David's day the patron saint of Wales. Joe Griffith and Sam Bryn kept the flag flying.

There will be a concert and social at the Trout Creek school on Friday evening March 10, at 7.30. Admission will be 15 cents, and lunch for two sold in boxes at 10 cents each. Everybody cordially invited.

Mr. S. Hyslop general organizer for the W. C. T. U. will address the Methodist congregation in the morning next Sunday, and in the evening will speak in the Presbyterian church. There is well worth hearing and large audiences are looked for.

Rev. Father Beausoliel officiated at mass here on Sunday. Crowded at the heavy roads the attendance from the country was small. Father Beausoliel read a report showing that over \$800 had been raised here for the enlargement of the church. As to the priest's salary. Well that is another story. The people shouldn't forget that the laborer is worthy of his hire and Father Beausoliel is worthy of his. He is an exceptionally good pastor, and never seems to tire. He covers a field so large that it is wonder that he can stand such a strenuous life. Here's hoping Claresholm church will grow so that he can be appointed permanent pastor here.

No, Claresholm hasn't a curling rink but it has curers, and a rink journeyed to Graman on Monday and played a couple of games with the disciples of the brow game there. They didn't expect to win and fully counted up to expectations. Not having a rink they had no practice and handled the "stones" for the first time this winter. The wonder was that they did so well against seasoned players. There were two games one resulting in a score of 14-8 and the other 9-5. That showed improvement and if another game had been played there is no telling who might have won. The rink was composed of J. G. Cumming, C. J. Brennan, A. Dunbar and R. E. Moffatt. They report a fine reception and the best of treatment in Graman the home of good sports.

Great regret is expressed in town at the announcement that the Rev. Mr. Henderson has resigned as pastor of the Presbyterian church. Mr. Henderson made the official announcement at the evening service on Sunday last. He has accepted a call to the church at Armstrong, B. C. and the Review assures him that the good wishes of friends of all churches here will go with him. At the Presbytery in High River Tuesday, Mr. Henderson made the necessary arrangements for leaving and expects to say farewell two weeks hence. Rev. Mr. Bryan of Nanton has been appointed moderator and will declare the pulpit vacant on the 19th. Mr. Bryan has also been appointed to succeed Mr. Henderson as convener of the home mission committee of the Presbytery. Mr. Allan of Tongue Creek will fill out the unexpired term as moderator. The Review reserves further reference until Mr. Henderson is leaving.

Mr. Ed. Robertson was a visitor to town this week, and a visitor ever receives a more cordial welcome. Everyone was glad to see him again and pleased to note that living far back from the line of active life is agreeing with him. Mr. Robertson is doing duties on a section of land up in the country 110 miles north of Bassano, or some where around there. He goes a mile once a week and is far from the reach of the steam horse 60 miles to the nearest railway point. Now, what do you think of that and some people think Alberta is well settled. Room for millions more. Mr. Robertson has two more years to spend on the farm and of course if a railway happens along, he may learn the use it and play for an indefinite period. The Review has no authority for that wise remark, but one can never tell. Mr. Robertson says some thirty miles from a railway are selling well in that country. Seem to be an awful lot of people anxious to separate from their rocky cash. The Review thinks that sometimes financial stringency is a blessing. No one can play you a "sucker" there. There was only one regrettable feature of Mr. Robertson's visit; it was too short, to please his many friends here.

Cook—On Sunday Feb 26 1911, to Mr. and Mrs. J. L. Cook a daughter.

Claresholm retrieved the defeat at Okotoks on Saturday last by taking the team of that picturesque town in to camp, one to either in a game here on Wednesday. The thaw made it a half swimming, half skating match, but the boys played for all that was in them and informed the visitors by the close margin. There were several heroic rescues from drowning and a number of medals will be applied for from the Royal Humane society and perhaps a flutter after Carangos emblem of heroism. The Review has only one regret. The sporting editor was away and our loved wife being out of commission we had to take the word of spectators for it.

The fire alarm "sirened," good word that, in four inspiring shrieks Monday night, and those who were not wise, ran with hearts palpitating to the door to see where the blaze was, while the more calloused felt the wall and seeing it wasn't their house, went on reading Ruskin or Tennyson. It was a false alarm. Some of the disturbed citizens didn't like it, but it was necessary for a brigade practice, and won't happen again. The brigade didn't hear the siren since it was changed, and how are men to respond to an alarm if they don't know it is an alarm? There were other motives for sounding it too, and it all worked out charmingly. Remember however, the next time you hear the siren there will be a fire. It will not be a false alarm. This, for members of the brigade, as well as citizens in general. The brigade made a fine turnout, and responded in double quick time. The hose was attached to the hydrant at the corner of Clarke street and taken down the lane at the rear as far as the old Alberta hotel. The chemicals were on the scene in short order and Charlie Booda had the hose hitched to the hose wagon in record time. The fire underwriters inspector never saw the boys really at work. The brigade is now in fine shape, and the members taking a real interest in the work which is a good thing for Claresholm and in after life as they look back on it all, the boys will probably realize that it was a good thing for themselves.

Mrs. Partridge Suicided

Elizabeth Partridge, wife of George Partridge, a farmer living several miles north-east of Claresholm, committed suicide Monday night by taking strychnine. The unfortunate woman was in town with her husband and towards evening started for home. When about a mile out of town she took a bottle from her satchel which had been originally filled with a cough mixture and took a dose from it. Her husband noticed her, but never suspected suicide, thinking she was taking a sip of cough medicine. After they had driven some distance further she told Mr. Partridge that she had taken poison and that it was too late. He turned the horses and drove back to Dr. Leam's office on a gallop but stomach pump and emetics were of no avail, the deadly drug had got in its work. She expired in a few minutes. The news spread rapidly and greatly shocked the town, this being the first case of self destruction since Claresholm was founded. Inspector Tucker as coroner summoned a jury which sat on Tuesday, and after hearing the evidence brought in a verdict that "death was caused by strychnine poisoning administered by her own hand." She had made up her mind to leave home and her brother went for her on Sunday but she then announced that she had changed her mind and would remain with her husband. She accompanied him to town Monday and while at a sister's house cried all the time and threatened to kill herself. She showed her sister the poison which she had in the witchell. The strychnine had been kept in the house for gopher poison. The sister advised her not to do it but apparently made no effort to take the poison from her. A fair summary of the evidence would be that the poor woman miserably brooding over infidelity and probably while her mind was weakened took the poison. She was twenty years of age and had been married a little over three years. The jury at the inquest was composed of C. J. Barron, C. T. Johnson, J. P. Reynolds, W. C. Brown, W. D. Munro and George Farrer. When the verdict was rendered the husband remarked "I thank you very much Mr. Tucker and gentlemen." To which the coroner replied, "That's all right we only did our duty."

THE DOMINION BANK

Incorporated 1870

Capital Paid Up \$4,000,000.
Reserves \$5,000,000.
Total assets \$62,000,000.

JAS. CLARK Co

We have just opened our Spring Stock of

The Famous **BIAS CORSET**

With **WYRBONE** Filling.

LISTEN!

Our Mothers wore corsets with the best of Arctic whale bone for stiffening.

Their Daughters, most of them, cannot wear corsets with whalebone because it costs \$15,000 per ton and hard to get at that.

Imitations and experiments followed close upon the scarcity of bone at what a cost of physical pain and sacrifice of beauty form only women "know."

But we have the substitute in **WYRBONE**.

What is Wyrbone?

WOVEN WIRE in strips' thin, like bone or steel and having a flexibility which permits it to bend as well as steel to the flat side and as well as the best whalebone to the thin edge.

Call and see them.
\$1.25 to \$3.75 per pair.
